Isebrook School Pupil Premium Strategy Statement 2022 - 2025

Part A: Pupil premium strategy plan - Statement of intent

Isebrook School is a vibrant and happy school with a hardworking, enthusiastic, and dedicated staff team. We have a passionate and dedicated senior leadership team, with a wide range of knowledge and skills from various branches of Education, bringing a wealth of experience and talents and a school ethos where staff champion our students and have the highest expectations with students and staff at the heart of all we do.

Isebrook School is a secondary setting which provides for students from 11-18 years old with a range of complex educational needs. About one-third of the students have autistic spectrum conditions and many of our young people have comorbidity of challenges which include social, emotional and behavioural difficulties; some of which have very challenging behaviours.

Isebrook specialises in cognition and learning with focus on general and specific learning difficulties [SpLDs] which include:

- Low levels of attainment
- Difficulty in acquiring literacy and numeracy skills
- Difficulty with processing abstract ideas
- Difficulties with fine and/or gross motor skills
- Signs of frustration
- Sequencing, organisation, phonological or short-term memory abilities
- Language skills and following instructions
- Delays in forming concepts
- Sensory processing / awareness

We have a strong ethos of inclusion and crucially a compassionate approach towards engaging and supporting our students and parents. There is a collective understanding of the impact of disadvantage on pupils' learning and staff at every level speak with one voice about our ambition and aspirations for **all** our pupils and preparing them for the challenges and opportunities of adulthood.

Our aim is to use pupil premium funding to help us achieve and sustain positive outcomes for our students. Whilst socio-economic disadvantage is not always the primary challenge our students face, evidence shows that outcomes for disadvantaged students across the school can be affected by efficient use of Pupil Premium funding to complement and support educational, social, emotional and mental health attainment.

Isebrook School Pupil Premium Strategy Statement 2022 - 2025

At the heart of our approach is high-quality Special Educational Needs teaching focussed on areas within the Education and Health Care Plan (EHCP) that our students in receipt of Pupil Premium require. Targeted support is offered, based on assessment of need, and helping students to access the curriculum intents, most appropriate to their development and progress.

Although our strategy is focused on the needs of students in receipt of Pupil Premium, efficient and planned allocation of funds will benefit all students at Isebrook School in the instance where funding is spent on whole-school approaches. It is the intention that outcomes for those not in receipt of Pupil Premium will be improved alongside progress of those who are.

We will also provide our students in receipt of Pupil Premium, with support to develop independent life and social skills through a robust and effective Preparation for Adulthood curriculum and are an accredited Skills Builder setting.

Our strategy is integral to wider school plans for education recovery, notably through renewed engagement with the National Tutoring Programme for students that have been most affected by breaks in access to education or deficits in emotional support and mental health intervention.

Our strategy will be driven solely by the needs and strengths of each young person, based on formal and informal assessments, and not through assumptions or labels. This will help us to ensure that we offer all students the relevant skills and experience they require to prepare for adulthood.

Final Comments:

Our internal assessments during 2021/22 indicated that disadvantaged students academic and wider development outcomes were in general, in line with their personal targets and outcomes within the EHCP. Where this was not the case, steps have been taken to provide additional resources and support both in school and via external providers to supplement their provision. The outcomes we aimed to achieve in our previous strategy by the end of 2021/2022 were not all fully realised due to the aspirational nature of some of the outcomes and circumstances outside of school's control, namely delays in planning and building works, reliant on contractors. As such, these outcomes have been planned for a further year.

Our assessments and observations suggested that for many students, mental health, anxiety and the effects of delays in the Connected Provision building availability, were pivotal in contributing to uncertainty and concern over their future for some vulnerable students. This led to challenges around access to support and provision for these students was detrimental to their behaviour, wellbeing and mental health to varying degrees. We used pupil premium funding to help provide wellbeing support and targeted interventions where required and to mitigate the effect of these challenges to benefit all students.

Additional activity

Our pupil premium strategy will be supplemented by additional activity that we are not funding using pupil premium or recovery premium. That will include:

- Working in partnership with local colleges and employers to provide opportunities such as work experience, employability sessions and community inclusion work, alongside the Skills Builder programme to complement our Preparation for Adulthood provisions, ensuring that lifelong skills are taught and practised to enable future independence.

- **Our Transition Lead** enables and sources link programmes and mentoring to enable young people with SEN to familiarise themselves with the college environment and gain some experience of college life and study. This includes arranging work-based learning that enables students to have first-hand experience of work, such as apprenticeships, traineeships, and supported internships.

Planning, implementation and evaluation

In addition, Isebrook School have identified the following priorities. Fulfilment will involve some investment from Pupil Premium funding:
