

CAREERS NEWSLETTER

PAGE 1
EDITION #1

Welcome to the first Isebrook Careers Newsletter. This fortnightly newsletter brings together opportunities, experiences, and information from employers, colleges, universities, and training providers. Each feature aims to expand families' knowledge of the careers landscape and labour market information (LMI).

Families, students, and staff are encouraged to explore the opportunities that may be of interest. This newsletter offers useful careers information and inspiration, with further details available through the underlined links throughout. This newsletter is designed to support students and families who are exploring the world of work and future career opportunities. Teachers will also share relevant opportunities with students to help support their interests, aspirations, and future pathways.

OPPORTUNITIES

Welcome to the Creating Tomorrow Partnership Futures Hub
The Futures Hub is a space accessible to everyone:

Students - You can use this space to explore your next steps and envision how you want your future to look.

Family Members - Find resources and information to help your young person make informed decisions and prepare for the future.

Check out this list of Creative Employers. Sign up to their newsletters, follow them on socials to be made aware of in-the-know news and common themes across employers in the sector.

Welcome to Skill City - your arena for the careers of the future. Navigate an immersive world where your passions become professional power-ups. Engage with Expert Citizens to master AI, build a scroll-stopping brand, and unlock the "insider" secrets of the modern workforce. Whether you're starting out or levelling up, step into the spotlight and lead the way.

Using AI for Career Preparation - In this module, you'll discover how AI tools can become your time saver for career research, CV building, and networking. By the end, you'll not only understand how AI can enhance your career prep but you'll also have the practical skills to make it happen.

Using AI for Interview and Assessment Preparation - This module is designed to show you how AI tools can support your journey to becoming interview-ready, helping you refine your skills, craft standout responses, and boost your confidence. By the end, you'll have actionable insights into leveraging AI for career advancement.

OPPORTUNITIES

Springpod offers a wide range of virtual work experience programmes that help students explore different career paths and gain practical industry insight. Designed by professionals and leading employers, these programmes cover areas such as Aerospace Engineering, Accounting, Retail with Aldi and JD Sports, and Travel with Tui. Participants can complete the experiences at their own pace while developing key employability skills, including communication, teamwork, and problem-solving. Students also receive certificates on completion, which can strengthen their CVs and support future career applications. Overall, Springpod provides an excellent opportunity to gain valuable real-world experience and build confidence for future career opportunities

Cinemagic is looking for imaginative and original films made by young people to be screened as part of CINEMAGIC YOUNG FILMMAKER 2026. The films can be about anything at all! Fact or fiction, comedy or drama, news programme, music video or documentary. Competition deadline is 3rd August 2026.

Escape Studios provide free, on demand tutorials. "Get a taste for our Animation, Games, Visual Effects, Concept Art and Motion Graphics courses with our insightful series of tutorials created by our tutors. Each tutorial dives into a specific topic in one of our disciplines, helping viewers to expand their knowledge in their own time. Whether you are looking to learn more about Unreal Engine, Maya or Houdini, our tutorials are here to help."

You may wish to consider Degree Apprenticeships. They enable you to gain a full undergraduate or master's degree while you work. Degree apprenticeships take three to six years to complete, depending on the course level. You'll spend most of your time working and you'll also study part-time at university. For example, you might go to university one or two days per week, or in short blocks, such as a week at a time. Overall, you spend about 20% of your time studying vs. 80% of your time working.

JOB OF THE WEEK

Herpetologist

A herpetologist is a zoologist who specialises in the study of amphibians (frogs, toads, salamanders) and reptiles (snakes, lizards, turtles, crocodiles).

They focus on the behavior, ecology, genetics, and conservation of these animals, working in universities, zoos, museums, or environmental field agencies.

LABOUR MARKET INFORMATION FACT

The government has announced £1 billion to create 200,000 new jobs and apprenticeships for 16-24 year olds – including a £2,000 incentive for employers taking on young apprentices and a new Jobs Guarantee expanded to ages 18-24.
